INDEPENDENT AUDITOR'S REPORT

To the Members of Inox Solar Limited

Report on the Audit of the Financial Statements

Opinion

We have audited the Financial Statements of Inox Solar Limited ("the Company"), which comprise the balance sheet as at March 31, 2026 and the statement of Profit and Loss, the statement of changes in equity and the statement of cash flows for the year then ended, and notes to the Financial Statements, including a summary of material accounting policies and other explanatory information (hereinafter referred to as the "Financial Statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Financial Statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2026 and loss, total comprehensive loss, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the Financial Statements under the provisions of the Companies Act, 2013 and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Information Other than the Financial Statement and Auditor's Report Thereon

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Board's Report but does not include the Financial Statements and our auditor's report thereon. The Reports are expected to be made available to us after the date of this auditor's report.

Our opinion on the Financial Statements does not cover the other information and we will not express any form of assurance conclusion thereon.

Head Office:

57-H, Connaught Circus, New Delhi - 110 001, India Phones : +91-11-23322359/1418
Email: dpnccp@dpncindia.com

In connection with our audit of the Financial Statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the Financial Statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

When we read the Annual Report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance.

Management's Responsibility for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these Financial Statements that give a true and fair view of the financial position, financial performance, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian accounting Standards specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate implementation and maintenance of accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Financial Statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Financial Statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Financial Statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control over financial reporting relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the

company has adequate internal financial controls with reference to Financial Statements in place and the operating effectiveness of such controls.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the Financial Statements, including the disclosures, and whether the Financial Statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the Financial Statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the Financial Statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the Financial Statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Other Matter

The statutory audit was conducted via making arrangements to provide requisite documents/information through an electronic medium. The Company has made available the following information/records/ documents/ explanations to us through e-mail and remote secure network of the Company: -

- a) Scanned copies of necessary records/documents deeds, certificates and the related records made available electronically through e-mail or remote secure network of the Company; and
- b) By way of enquiries through video conferencing, dialogues and discussions over the phone, e-mails and similar communication channels.

It has also been represented by the management that the data and information provided electronically for the purpose of our audit are correct, complete, reliable and are directly generated from the accounting system of the Company, extracted from the records and files, without any further manual modifications so as to maintain its integrity, authenticity, readability and completeness. In addition, based on our

review of the various internal audit reports/inspection reports (as applicable), nothing has come to our knowledge that makes us believe that such an audit procedure would not be adequate.

Our report is not modified in respect of the above matters.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Companies Act, 2013, we give in the "Annexure A" statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.

2. With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended:

In our opinion and to the best of our information and according to the explanations given to us, the company has not paid any managerial remuneration to its directors during the period.

3. As required by Section 143(3) of the Act, we report that:

(a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.

(b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books except as stated in paragraph 3(h)(vi) below on reporting under Rule 11(g) of the Companies (Audit and Auditors) Rules, 2014.

(c) The Balance Sheet, the Statement of Profit and Loss, the Cash Flow Statement and Statement of Changes in equity dealt with by this Report are in agreement with the books of account.

(d) In our opinion, the aforesaid Financial Statements comply with the Indian Accounting Standards specified under Section 133 of the Act;

(e) On the basis of the written representations received from the directors as on March 31, 2026 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2026 from being appointed as a director in terms of Section 164 (2) of the Act.

(f) the qualification relating to the maintenance of accounts and other matters connected therewith are as stated in the paragraph 3(b) above on reporting under Section 143(3)(b) of the Act and paragraph 3(h)(vi) below on reporting under Rule 11(g) of the Companies (Audit and Auditors) Rules, 2014.

(g) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure B".

(h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:

i. The Company does not have any pending litigations other than those disclosed in the Financial Statements.

ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.

iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.

iv. (a) The Management has represented that, to the best of its knowledge and belief, other than as disclosed in the notes to the accounts, no funds (which are material either individually or in aggregate) have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person(s) or entity(ies), including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.

(b) Management has represented, that, to the best of its knowledge and belief, other than as disclosed in the note to the accounts, no funds (which are material either individually or in aggregate) have been received by the Company from any person(s) or entity(ies), including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.

(c) Based on the audit procedures performed that have been considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause iv(a) and iv(b) contain any material mis-statement.

v. There is no dividend declared or paid during the period by the company.

vi. Based on our examination, which included test checks, the Company has used an accounting software for maintaining its books of account, which has a feature of audit trail (edit log) facility and the same did not operate throughout the year for all relevant transactions recorded in the software (it was enabled only with effect from April 30, 2025). Further, during the course of our audit we did not come across any instance of audit trail feature being tampered with and the audit trail has been preserved by the company as per the statutory requirements for record retention.

ANNEXURE-A TO THE INDEPENDENT AUDITORS' REPORT
(Referred to in paragraph - 1 under the heading of "Report on Other Legal and Regulatory Requirements" of our Report of even date.)

Based on the audit procedures performed for the purpose of reporting a true and fair view on the Financial Statements of the Company and taking into consideration the information and explanations given by the management and the books of account and other records examined by us in the normal course of audit and to the best of our knowledge and belief, we report that: -

- (i) (a) (A) The company has maintained proper records showing full particulars including quantitative details and situation of property, plant and equipment (including Right of Use assets).
- (B) The company has maintained proper records showing full particulars of intangible assets.
- (b) According to the information and explanations are given to us and on the basis of our examination of the records of the Company, the Company has a regular programme of physical verification of its Property, Plant and Equipment (including Right of Use assets) by which all property, plant and equipment (including Right of Use assets) are verified in a phased manner. In accordance with this programme, certain property, plant and equipment were verified during the year. In our opinion, this periodicity of physical verification is reasonable having regard to the size of the Company and the nature of its assets. No material discrepancies were noticed on such verification.
- (c) The Company doesn't have any immovable property hence reporting under paragraph 3(i)(c) of the order is not applicable.
- (d) The company is not revaluing its property, plant and Equipment (including right-of-use assets) or intangible assets during the year, hence paragraph 3(i)(d) is not applicable on the company.
- (e) Based on the management representation, no proceedings have been initiated or are pending against the company for holding any Benami property under the Benami Transactions (Prohibition) Act, 1988 (45 of 1988) and rules made thereunder, hence the paragraph 3(i)(e) is not applicable on the company.
- (ii) (a) On the basis of our examination of the books of accounts and records and in our opinion, the management has physically verified the inventory at reasonable intervals, the coverage and procedure of such verification by the management is appropriate and no discrepancies of 10% or more in the aggregate for each class of inventory have been found by the management.
- (b) On the basis of our examination of the books of accounts and records, the company has been sanctioned working capital limits in excess of five crore rupees from banks or financial institutions on the basis of security of current assets and the monthly returns or statements filed by the company with such banks or financial institutions are in agreement with the books of account of the Company.
- (iii) On the basis of our examination of the books of accounts and records, during the year the company has made investments in, provided any guarantee or security or granted any loans or advances in the nature of loans, secured or unsecured, to companies, firms, Limited Liability Partnerships or any other parties.

- (a) Based on the examination of the books of accounts and records of the company, during the year the company has provided loans or provided advances in the nature of loans, or stood guarantee, or provided security to any other entity. The details of the same has been given below: -

(Figures in Lakhs)

Particulars	Guarantees	Security	Loans	Advances in nature of loans
Aggregate amount granted/provided during the year				
- Subsidiaries	-	-	-	-
- Joint Ventures	-	-	-	-
- Associates	-	-	-	-
- Others	-	-	203.79*	-
Balance outstanding as at balance sheet date in respect of above cases: -				
- Subsidiaries	-	-	-	-
- Joint Ventures	-	-	-	-
- Associates	-	-	-	-
- Others	-	-	203.79*	-

*The amount quoted above is excluding interest.

- (b) Based on the examination of the books of accounts and records of the company, the investments made, guarantees provided, security given and the terms and conditions of the grant of all loans and advances in the nature of loans and guarantees provided are not prejudicial to the company's interest.
- (c) Based on the examination of the books of accounts and records of the company, as the company has given loan on repayable on demand accordingly the schedule of repayment of principal & interest and repayment and receipts thereof are not applicable.
- (d) Based on the examination of the books of accounts and records of the company, as mentioned above that the loans are repayable on demand, hence paragraph 3(iii)(d) is not applicable.
- (e) Based on the examination of the books of accounts and records of the company, as mentioned above that the loans are repayable on demand hence there is no loan or advance in the nature of loan granted which has fallen due during the year, has been renewed or extended or fresh loans granted to settle the over dues of existing loans given to the same parties.
- (f) Based on the examination of the books of accounts and records of the company, the company has granted loans or advances in the nature of loans either repayable on demand or without specifying any terms or period of repayment. The details of the same are given below: -

(Figures in Lakhs)

	All Parties	Promoters	Related parties
Aggregate amount of loans/ advances in nature of loans			
- Repayable on demand (A)	203.79*	-	203.79*
- Agreement does not specify any terms or period of repayment (B)			
Total (A+B)	203.79*		203.79*
Percentage of loans/ advances in nature of loans to the total loans	100%		100%

*The amount quoted above is excluding interest.

- (iv) In our opinion, in respect of loans, investments, guarantees, and security provisions of section 185 and 186 of the Companies Act, 2013 have been complied with.
- (v) The company has not accepted any deposits or amounts which are deemed to be deposited; hence, paragraph 3(v) of the order is not applicable.
- (vi) We are of the opinion that the Cost Records are not required to be maintained by the company pursuant to the Rules made by the Central Government for the maintenance of prescribed accounts and records under section 148 of the Act.
- (vii) (a) On the basis of our examination of the records of the company, amounts deducted/accrued in the books of account in respect of undisputed statutory dues including Goods and Services Tax, Provident fund, employees' state insurance, income-tax, sales-tax, service tax, duty of customs, duty of excise, value-added tax, cess and any other statutory dues have generally been regularly deposited during the year by the company with the appropriate authorities.

In our opinion, no undisputed amounts payable in respect of provident fund, income tax, sales tax, value-added tax, duty of customs, service tax, cess and other material statutory dues were in arrears as at March 31, 2026 for a period of more than six months from the date they became payable.

- (b) On the basis of our examination of the books of accounts and records, there are no statutory dues referred to in subclause (a) above that have not been deposited on account of any dispute.
- (viii) On the basis of our examination of the books of accounts and records, there are no transactions that are there which is not recorded in the books of account that have been surrendered or disclosed as income during the year in the tax assessments under the Income Tax Act, 1961 (43 of 1961), hence, paragraph 3 (viii) of the order is not applicable to the company.
- (ix) (a) On the basis of our examination of the books of accounts and records and in our opinion, there is no default in repayment of loans or other borrowings or in the payment of interest thereon to any lender.
- (b) According to the information and explanations given to us and on the basis of our audit procedures, we report that the company has not been declared willful defaulter by any bank or financial institution or government or any government authority.

- (c) In our opinion and according to the information and explanations given to us, the company has utilized the money obtained by way of term loans during the period for the purposes for which they were obtained.
- (d) According to the information and explanations given to us and the procedures performed by us, and on an overall examination of the Financial Statements of the company, we report that no funds raised on a short-term basis have, prima facie, been used for long-term purposes by the company.
- (e) The company does not have any subsidiaries, associates or joint ventures, hence, reporting under paragraph 3(ix)(e) of the order is not applicable.
- (f) The company does not have any subsidiaries, associates or joint ventures, hence, reporting under paragraph 3(ix)(f) of the order is not applicable.
- (x) (a) The Company has not raised money by way of initial public offer or further public offer (including debt instruments) during the year and hence, reporting under paragraph 3(x)(a) of the Order is not applicable.
- (b) In our opinion and according to the information and explanations given to us, the company not made any Private Placement of shares or convertible debentures (fully, partially or optionally convertible) during the year. The company has made preferential allotment of shares/share warrants during the year and the requirements of Section 42 and 62 of The Companies Act, 2013 as applicable have been complied with and the funds raised have been used for the purpose for which the funds were raised.
- (xi) (a) Based upon the audit procedures performed for the purpose of reporting that true and fair view of the financial statements and according to the information and explanations given by the management, we report that no fraud by the company or no material fraud on the company by the officers and employees of the company has been noticed or reported during the year.
- (b) No report under sub-section (12) of section 143 of the Companies Act has been filed in Form ADT-4 as prescribed under rule 13 of Companies (Audit and Auditors) Rules, 2014 with the Central Government, during the year and up-to the date of this report.
- (c) As represented to us by the management, there are no whistle-blower complaints received by the company during the year.
- (xii) The Company is not a Nidhi company. Hence, paragraph 3(xii) of the Order is not applicable.
- (xiii) Based on our examination of the records of the Company and in our opinion, transactions with the related parties are in compliance with sections 177 and 188 of the Act as applicable and details of such transactions have been disclosed in the Financial Statements as required by the applicable Indian Accounting Standards.
- (xiv) (a) In our opinion and based on our examination, the company has an internal audit system that commensurate with the size and nature of its business.
- (b) We have considered the internal audit reports of the company issued till date, for the period under audit.

- (xv) According to the information and explanations given to us, in our opinion during the year the company has not entered into any non-cash transactions with its directors or persons connected with its directors and hence, provisions of section 192 of the Companies Act, 2013 are not applicable to the company.
- (xvi) (a) Based on our examination of the records of the Company, the Company is not required to be registered under section 45-IA of the Reserve Bank of India Act 1934.
- (b) Based on our examination of the records of the Company, the Company has not conducted any non-banking financial or Housing Finance activities without a valid Certificate of Registration from the Reserve Bank of India Act, 1934.
- (c) According to the information and explanations given to us, the Company is not a Core Investment company as defined in the regulations made by the Reserve Bank of India and accordingly there is no requirement to fulfill the criteria of an unregistered CIC.
- (d) Based on our examination of the records of the Company, there is no CIC as part of the group and therefore Clause 3 (xvi)(d) is not applicable to the company.
- (xvii) Based on our examination of the records of the Company, the Company has incurred cash losses of Rs. 830.77 Lakhs and Rs. 63.02 Lakhs in the current financial year and the immediately preceding financial year.
- (xviii) There has been no resignation of the statutory auditors during the year therefore, reporting under Paragraph 3(xviii) of the order is not applicable.
- (xix) According to the information and explanations are given to us and on the basis of the financial ratios, ageing and expected dates of realization of financial assets and payment of financial liabilities, other information accompanying the Financial Statements, our knowledge of the Board of Directors and management plans and based on our examination of the evidence supporting the assumptions, nothing has come to our attention, which causes us to believe that any material uncertainty exists as on the date of the audit report that company is not capable of meeting its liabilities existing at the date of the balance sheet as and when they fall due within a period of one year from the balance sheet date. We, however, state that this is not an assurance as to the future viability of the company. We further state that our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the balance sheet date, will get discharged by the company as and when they fall due.

(xx) Based on our examination of the records of the company, Section 135 of the Companies Act, 2013 is not applicable to company, hence, paragraph 3(xx) of the order is not applicable.

ANNEXURE - B TO THE INDEPENDENT AUDITOR'S REPORT OF EVEN DATE ON THE FINANCIAL STATEMENTS OF INOX SOLAR LIMITED

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of INOX SOLAR LIMITED ("the Company") as of March 31, 2026 in conjunction with our audit of the Financial Statements of the Company for the period ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the Financial Statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of Financial Statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of Financial Statements in accordance with

generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the Financial Statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2026, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Notes to the financial statements for the year ended 31 March 2026

1. Company information

Inox Solar Limited ("the Company") is a public limited company incorporated under the Companies Act, 2013, pursuant to a certificate of incorporation dated 13 November 2024 issued by the Registrar of Companies, Central Registration Centre. The Corporate Identity Number (CIN) of the Company is U35105GJ2024PLC156301, and its registered office is situated at 301, ABS Tower, Old Padra Road, Racecourse, Vadodara – 390 007, Gujarat, India. The Company is a wholly owned subsidiary of Inox Clean Energy Limited (formerly known as Inox Clean Energy Private Limited and, prior to that, as Nani Virani Wind Energy Private Limited).

The Company is engaged in the business of manufacturing solar modules and solar cells. It has set up a solar module manufacturing facility at Bavla, Gujarat, with an aggregate capacity of 3.00 GW.

To expand its solar module manufacturing business and achieve backward integration into solar cell manufacturing, the Company is setting up a manufacturing facility in Dhenkanal District, Odisha, which is currently under construction. The Odisha facility is planned as an automated, integrated TOPCon solar module and solar cell manufacturing facility, with a total planned capacity of approximately 5.00 GW of solar modules and approximately 5.00 GW of solar cells. Phase 1 of the solar cell manufacturing capacity, of approximately 2.40 GW, is expected to be commissioned by the first quarter of financial year 2027-28. Balance capacity is expected to be commissioned by the second quarter of financial year 2027-28. On 27 May 2025, the Odisha Industrial Infrastructure Development Corporation (IDCO) allotted 55.69 acres of land in Dhenkanal, Odisha, to the Company for the development of this facility

These financial statements were authorized for issue by the Company's Board of Directors as on 05 September 2026.

2. Statement of compliance and basis of preparation and presentation

2.1 Statement of Compliance

These financial statements of the Company comply in all material aspects with the Indian Accounting Standards ("Ind AS") notified under section 133 of the Companies Act, 2013 ("the Act") and other relevant provisions of the Act.

2.2 Basis of Measurement

These financial statements are presented in Indian Rupees (INR), which is also the Company's functional currency. All amounts have been rounded-off to the nearest lakh, unless otherwise indicated.

These financial statements have been prepared on the historical cost basis except for certain financial instruments that are measured at fair values at the end of each reporting period, as explained in the material accounting policies. Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Company takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value for measurement and/or disclosure purposes in these financial statements is determined on such a basis.

In addition, for financial reporting purposes, fair value measurements are categorized into Level 1, 2, or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;
- Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the asset or liability.

2.3 Basis of Preparation and Presentation

The financial statements have been prepared on accrual and going concern basis.

Any asset or liability is classified as current if it satisfies any of the following conditions:

- the asset/liability is expected to be realized/settled in the Company's normal operating cycle;
- the asset is intended for sale or consumption;
- the asset/liability is held primarily for the purpose of trading;
- the asset/liability is expected to be realized/settled within twelve months after the reporting period;
- the asset is cash or cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least twelve months after the reporting date;
- in the case of a liability, the Company does not have an unconditional right to defer settlement of the liability for at least twelve months after the reporting date.

All other assets and liabilities are classified as non-current.

For the purpose of current/non-current classification of assets and liabilities, the Company has ascertained its normal operating cycle as twelve months.

Deferred tax assets and liabilities are classified as non-current only.

3. Material Accounting Policies

3.1 Revenue Recognition

Sale of Goods

The Company recognises revenue when control over the promised goods or services is transferred to the customer at transaction price (net of variable consideration) that reflects the consideration to which the Company expects to receive in exchange for those goods or services.

The Company has generally concluded that it is the principal in its revenue arrangements as it typically controls the goods or services before transferring them to the customer.

Revenue is adjusted for variable consideration such as discounts, rebates, refunds, credits, price concessions, incentives, liquidated damages or other similar items in a contract when they are highly probable to be provided. The amount of revenue excludes any amount collected on behalf of third parties.

The Company recognises revenue generally at the point in time when the products are delivered to customer or when it is delivered to a carrier for export sale, which is when the control over product is transferred to the customer. In contracts where freight is arranged by the Company and recovered from the customers, the same is treated as a separate performance obligation and revenue is recognised when such freight services are rendered.

In revenue arrangements with multiple performance obligations, the Company accounts for individual products and services separately if they are distinct i.e. if a product or service is separately identifiable from other items in the arrangement and if a customer can benefit from it. The consideration is allocated between separate products and services in the arrangement based on their stand-alone selling prices.

Revenue from sale of by products are included in revenue.

There is no significant financing component in revenue recognition. In case of any such financing component is there in revenue arrangements, the Company adjusts the transaction price for financing component, if any and the adjustment is accounted in finance cost.

Contract balances

A trade receivable represents the Company's right to an amount of consideration that is unconditional i.e., only the passage of time is required before payment of consideration is due and the amount is billable.

Unbilled revenue represents the revenue that the company recognizes where the PPA is signed but invoices are raised subsequently.

Other Income

Interest Income from a financial asset is recognized on time basis, by reference to the principal outstanding at the effective interest rate applicable, which is the rate which exactly discounts estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount on initial recognition.

3.2 Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale.

Interest income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalization.

All other borrowing costs are recognized in profit or loss in the period in which they are incurred.

3.3 Taxation

Income tax expense represents the sum of the tax currently payable and deferred tax.

3.3.1 Current tax

The tax currently payable is based on taxable profit for the year. Taxable profit differs from 'profit before tax' as reported in the statement of profit and loss because of items of income or expense that are taxable or deductible in other years, items that are never taxable or deductible and tax incentives. The Company's current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

3.3.2 Deferred tax

Deferred tax is recognized on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognized for all taxable temporary differences. Deferred tax assets are generally recognized for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilized.

Such deferred tax assets and liabilities are not recognized if the temporary difference arises from the initial recognition (other than in a business combination) of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit. In addition, deferred tax liabilities are not recognized if the temporary difference arises from the initial recognition of goodwill.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realized, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Company expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

3.3.3 Presentation of current and deferred tax:

Current and deferred tax are recognized in profit or loss, except when they relate to items that are recognized in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognized in other comprehensive income or directly in equity respectively.

Where current tax or deferred tax arises from the initial accounting for a business combination, the tax effect is included in the accounting for the business combination.

The Company offsets current tax assets and current tax liabilities, where it has a legally enforceable right to set off the recognized amounts and where it intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.

In case of deferred tax assets and deferred tax liabilities, the same are offset if the Company has a legally enforceable right to set off corresponding current tax assets against current tax liabilities and the deferred tax assets and deferred tax liabilities relate to income taxes levied by the same tax authority on the Company.

3.4 Property, Plant and Equipment

An item of Property, plant and equipment (PPE) that qualifies as an asset is measured on initial recognition at cost. Following initial recognition, property, plant and equipment are carried at cost, as reduced by accumulated depreciation and impairment losses, if any.

The Company identifies and determines cost of each part of an item of property, plant and equipment separately, if the part has a cost which is significant to the total cost of that item of property, plant and equipment and has useful life that is materially different from that of the remaining item.

Cost comprises of purchase price / cost of construction, including non-refundable taxes or levies and any expenses attributable to bring the PPE to its working condition for its intended use. Project pre-operative expenses and expenditure incurred during construction period are capitalized to various eligible PPE. Borrowing costs directly attributable to acquisition or construction of qualifying PPE are capitalized.

Spare parts, stand-by equipment and servicing equipment that meet the definition of property, plant and equipment are capitalized at cost and depreciated over their useful life. Costs in nature of repairs and maintenance are recognized in the Statement of Profit and Loss as and when incurred.

Assets in the course of construction are capitalised in the assets under Capital work in progress net of accumulated impairment loss if any. At the point when an asset is operating at management's intended use, the cost of construction is transferred to the appropriate category of property, plant and equipment and depreciation commences.

Costs associated with the commissioning of an asset and present value of any obligatory decommissioning costs are capitalised where the asset is available for use but incapable of operating at normal levels until a year of commissioning has been completed. Revenue (net of cost) generated from production during the trial period is capitalised.

Depreciation is recognized so as to write off the cost of PPE (other than freehold land and properties under construction) less their residual values over their useful lives, using the straight-line method. The useful lives prescribed in Schedule II to the Companies Act, 2013 are considered as the minimum lives.

If the management's estimate of the useful life of property, plant and equipment at the time of acquisition of the asset or of the remaining useful life on a subsequent review is shorter than that envisaged in the aforesaid

schedule, depreciation is provided at a higher rate based on the management's estimate of the useful life/remaining useful life. The estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

The useful lives adopted by the Company is given below:

- Computer and Printers: 3 years
- Vehicles: 8 years
- Factory Building: 30 years
- Plant & Machinery: 15 years
- Office Equipment: 5 years

The management believes that these estimated useful lives are realistic and reflect fair approximation of the period over which the assets are likely to be used.

An item of property, plant and equipment is derecognized upon disposal or when no future economic benefits are expected to arise from its use or disposal. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognized in profit or loss.

3.5 Impairment of tangible assets

At the end of each reporting period, the Company reviews the carrying amounts of its tangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any).

When it is not possible to estimate the recoverable amount of an individual asset, the Company estimates the recoverable amount of the cash-generating unit to which the asset belongs. When a reasonable and consistent basis of allocation can be identified, corporate assets are also allocated to individual cash-generating units, or otherwise they are allocated to the smallest group of cash-generating units for which a reasonable and consistent allocation basis can be identified.

Recoverable amount is the higher of fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

If it is not possible to measure fair value less cost of disposal because there is no basis for making a reliable estimate of the price at which an orderly transaction to sell the asset would take place between market participants at the measurement dates under market conditions, the asset's value in use is used as recoverable amount.

If the recoverable amount of an asset (or cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or cash-generating unit) is reduced to its recoverable amount. An impairment loss is recognized immediately in profit or loss.

When an impairment loss subsequently reverses, the carrying amount of the asset (or cash-generating unit) is increased to the revised estimate of its recoverable amount, to the extent that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been

recognized for the asset (or cash-generating unit) in prior years. A reversal of an impairment loss is recognized immediately in profit or loss.

3.6 Leases

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases are classified as operating leases. The leasing transaction of the Company comprises only operating leases.

3.6.1 The Company as lessee

The Company lease assets include classes primarily consisting of leases for land and building. Company assesses whether a contract contains a lease, at the inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether: (i) the contract involves the use of an identified asset (ii) the Company has substantially all of the economic benefits from the use of the assets through the period of the lease and (iii) the Company has the right to direct the use of the assets.

At the date of commencement of the lease, the Company recognizes a right-of-use asset ("ROU") and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short-term leases) and low-value leases, the Company recognizes the lease payments as on operating expenses on straight-line bases over the term of the lease.

The right-of-use assets are initially recognized as a cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct cost less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses.

Right-of-use assets are depreciated from the commencement date on a straight-line basis over the shorter of the lease term and useful life of the underlying assets. Right-of-use assets are evaluated for recoverability whenever events or changes in circumstance indicate that their carrying amounts may not be recoverable.

For the purpose of impairment testing, the recoverable amount (i.e., the higher of the fair value less cost to sell and the value-in-use) is determined on an individual assets basis unless the assets do not generate cash flow that is largely independent of those from other assets. In such cases, the recoverable amount is determined from the Cash Generating Unit (CGU) to which the asset belongs.

The lease liability is initially measured at amortized cost at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rates in the country of domicile of these lease liabilities are remeasured with a corresponding adjustment to the related right of use asset if the Company change its assessment if whether it will exercise an extension or a termination option.

Lease liability and ROU assets have been separately presented in the Balance sheet and lease payments have been classified as financial cash flows.

3.7 Employee Benefit Expenses

- **a) Short term employee benefits:** a liability is recognised for benefits accruing to employees in respect of wages, salaries and annual leaves in the period the related service is rendered at the undiscounted amount of the benefits expected to be paid in exchange for that service. Liabilities recognised in respect of short-term employee benefits are measured at the undiscounted amount of the benefits expected to be paid in exchange for the related service.
- **b) Long term employee benefits:** Liabilities recognised in respect of long-term employee benefits are measured at the present value of the estimated future cash outflows expected to be made by the Company in respect of services provided by employees up to the reporting date.

The Company operates a defined benefit gratuity plan in India. The cost of providing benefits under the defined benefit plan is determined using the projected unit credit method.

Remeasurements, comprising of actuarial gains and losses, the effect of the asset ceiling, excluding amounts included in net interest on the net defined benefit liability and the return on plan assets (excluding amounts included in net interest on the net defined benefit liability), are recognised immediately in the balance sheet with a corresponding debit or credit to retained earnings through OCI in the period in which they occur. Remeasurements are not reclassified to profit or loss in subsequent periods.

Past service costs are recognised in profit or loss on the earlier of: (i) The date of the plan amendment or curtailment, and (ii) The date that the Company recognises related restructuring costs.

Net interest is calculated by applying the discount rate to the net defined benefit liability or asset. The Company recognises the following changes in the net defined benefit obligation as an expense in the statement of profit and loss:

- Service costs comprising current service costs, past-service costs, gains and losses on curtailments and non-routine settlements; and
- Net interest expense or income

The liabilities for earned leave are not expected to be settled wholly within 12 months after the end of the period in which the employees render the related service. They are therefore measured as the present value of expected future payments to be made in respect of services provided by employees up to the end of the reporting period using the projected unit credit method.

The benefits are discounted using the market yields at the end of the reporting period that have terms approximating to the terms of the related obligation. Remeasurements as a result of experience adjustments and changes in actuarial assumptions are recognised in profit or loss. The obligations are presented as current liabilities in the balance sheet if the entity does not have an unconditional right to defer the settlement for at least twelve months after the reporting date.

- **c) Termination benefits:** A liability for a termination benefit is recognised at the earlier of when the entity can no longer withdraw the offer of the termination benefit and when the entity recognises any related restructuring costs.
- **d) Defined contribution plans:** Payments to defined contribution retirement benefit plans are recognised as an expense when employees have rendered service entitling them to the contributions. Payments made to state managed retirement benefit plans are accounted for as payments to defined contribution plans where the Company's obligations under the plans are equivalent to those arising in a defined contribution retirement benefit plan.

- **e) Defined Benefit plans:** For defined benefit retirement benefit plans, the cost of providing benefits is determined using the Projected Unit Credit Method, with actuarial valuations being carried out at the end of each annual reporting period. Remeasurements comprising actuarial gains and losses, the effect of the asset ceiling (if applicable) and the return on plan assets (excluding interest) are recognised immediately in the balance sheet with a charge or credit to other comprehensive income in the period in which they occur. Remeasurements recognised in other comprehensive income are not reclassified. Actuarial valuations are being carried out at the end of each annual reporting period for defined benefit plans.

The retirement benefit obligation recognised in the Standalone financial statements represents the deficit or surplus in the Company's defined benefit plans. Any surplus resulting from this calculation is limited to the present value of any economic benefits available in the form of refunds from the plans or reductions in future contributions to the plans.

The Company pays gratuity to the employees whoever has completed five years of service with the Company at the time of resignation/superannuation. The gratuity is paid for each completed year of service as per the Payment of Gratuity Act, 1972.

3.8 Provisions and contingencies

The Company recognizes provisions when a present obligation (legal or constructive) as a result of a past event exists and it is probable that an outflow of resources embodying economic benefits will be required to settle such obligation and the amount of such obligation can be reliably estimated.

The amount recognized as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. If the effect of time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost.

A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not require an outflow of resources embodying economic benefits or the amount of such obligation cannot be measured reliably. When there is a possible obligation or a present obligation in respect of which likelihood of outflow of resources embodying economic benefits is remote, no provision or disclosure is made.

3.9 Financial instruments

Financial assets and financial liabilities are recognized when the Company becomes a party to the contractual provisions of the instruments. Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition.

Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognized immediately in profit or loss.

A] Financial assets

- **a) Initial recognition and measurement:** Financial assets are recognized when the Company becomes a party to the contractual provisions of the instrument. On initial recognition, a financial asset is recognized at fair value, in case of financial assets which are recognized at fair value through profit and loss (FVTPL), its transaction costs are recognized in the statement of profit and loss. In other cases, the transaction costs are attributed to the acquisition value of the financial asset.
- **b) Effective interest method:** The effective interest method is a method of calculating the amortized cost of a debt instrument and of allocating interest income over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the debt instrument, or, where appropriate, a shorter period, to the net carrying amount on initial recognition. Income is recognized on an effective interest basis for debt instruments other than those financial assets classified as at FVTPL. Interest income is recognized in profit or loss and is included in the 'Other income' line item.
- **c) Subsequent measurement:** For subsequent measurement, the Company classifies a financial asset in accordance with the below criteria: (i) The Company's business model for managing the financial asset and (ii) The contractual cash flow characteristics of the financial asset. Based on the above criteria, the Company classifies its financial assets into the following categories:
 - **i. Financial assets measured at amortized cost:** A financial asset is measured at the amortized cost if both the following conditions are met: a) The Company's business model objective for managing the financial asset is to hold financial assets in order to collect contractual cash flows, and b) The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. This category applies to cash and bank balances of the Company. Such financial assets are subsequently measured at amortized cost using the effective interest method. The amortized cost of a financial asset is also adjusted for loss allowance, if any.
 - **ii. Financial assets measured at FVTOCI:** A financial asset is measured at FVTOCI if both of the following conditions are met: a) The Company's business model objective for managing the financial asset is achieved both by collecting contractual cash flows and selling the financial assets, and b) The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. Investments in equity instruments classified under financial assets are initially measured at fair value. The Company may, on initial recognition, irrevocably elect to measure the same either at FVTOCI or FVTPL. The Company makes such election on an instrument-by-instrument basis. Fair value changes on an equity instrument are recognized as other income in the Statement of Profit and Loss unless the Company has elected to measure such instrument at FVTOCI. The Company does not have any financial assets in this category.
 - **iii. Financial assets measured at FVTPL:** A financial asset is measured at FVTPL unless it is measured at amortized cost or at FVTOCI as explained above. This is a residual category applied to all other investments of the Company excluding investments in subsidiaries, joint ventures and associate companies. Such financial assets are subsequently measured at fair value at each reporting date. Fair value changes are recognized in the Statement of Profit and Loss. Dividend income on the investments in equity instruments are recognized as 'other income' in the Statement of Profit and Loss. The Company does not have any financial assets in this category.

- **d) Derecognition:** A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is derecognized (i.e., removed from the Company's Balance Sheet) when any of the following occurs: (i) The contractual rights to cash flows from the financial asset expires; (ii) The Company transfers its contractual rights to receive cash flows of the financial asset and has substantially transferred all the risks and rewards of ownership of the financial asset; (iii) The Company retains the contractual rights to receive cash flows but assumes a contractual obligation to pay the cash flows without material delay to one or more recipients under a 'pass-through' arrangement (thereby substantially transferring all the risks and rewards of ownership of the financial asset); (iv) The Company neither transfers nor retains substantially all risk and rewards of ownership and does not retain control over the financial asset.

In cases where Company has neither transferred nor retained substantially all of the risks and rewards of the financial asset, but retains control of the financial asset, the Company continues to recognize such financial asset to the extent of its continuing involvement in the financial asset. In that case, the Company also recognizes an associated liability.

The financial asset and the associated liability are measured on a basis that reflects the rights and obligations that the Company has retained. On derecognition of a financial asset, the difference between the asset's carrying amount and the sum of the consideration received and receivable and the cumulative gain or loss that had been recognized in other comprehensive income and accumulated in equity is recognized in profit or loss if such gain or loss would have otherwise been recognized in profit or loss on disposal of that financial asset.

- **e) Impairment of financial assets:** The Company applies expected credit losses (ECL) model for measurement and recognition of loss allowance on the following: (i) Financial assets measured at amortized cost, and (ii) Financial assets measured at fair value through other comprehensive income (FVTOCI). The Company does not have any trade receivables in this year. In case of assets listed as (i) and (ii) above, the Company determines if there has been a significant increase in credit risk of the financial asset since initial recognition. If the credit risk of such assets has not increased significantly, an amount equal to 12-month ECL is measured and recognized as loss allowance. However, if credit risk has increased significantly, an amount equal to lifetime ECL is measured and recognized as loss allowance. Subsequently, if the credit quality of the financial asset improves such that there is no longer a significant increase in credit risk since initial recognition, the Company reverts to recognizing impairment loss allowance based on 12-month ECL.

ECL is the difference between all contractual cash flows that are due to the entity in accordance with the contract and all the cash flows that the entity expects to receive, discounted at the original effective interest rate. 12-month ECL are a portion of the lifetime ECL which result from default events that are possible within 12 months from the reporting date. Lifetime ECL are the expected credit losses resulting from all possible default events over the expected life of a financial asset.

ECL are measured in a manner that they reflect unbiased and probability weighted amounts determined by a range of outcomes, taking into account the time value of money and other reasonable information available as a result of past events, current conditions and forecasts of future economic conditions. ECL impairment loss allowance (or reversal) recognized during the period is recognized as income/ expense in the Statement of Profit and Loss under the head 'Other expenses' / 'Other income'.

B] Financial liabilities and equity instruments

Debt and equity instruments issued by the Company are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definition of a financial liability and an equity instrument.

- **i. Equity instruments:-** An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by the Company member are recognized at the proceeds received, net of direct issue costs. Repurchase of the Company's own equity instruments is recognized and deducted directly in equity. No gain or loss is recognized in profit or loss on the purchase, sale, issue or cancellation of the Company's own equity instruments.
- **ii. Financial Liabilities:-** Financial liabilities and equity instruments criteria define the presentation under separate classifications below:
 - **a) Initial recognition and measurement:** Financial liabilities are recognized when the company becomes a party to the contractual provisions of the instrument. Financial liabilities are initially measured at fair value.
 - **b) Subsequent measurement:** Financial liabilities are subsequently measured at amortized cost using the effective interest rate method. Financial liabilities carried at fair value through profit or loss are measured at fair value with all changes in fair value recognized in the Statement of Profit and Loss. The Company has not designated any financial liability as at FVTPL.
 - **c) Derecognition of financial liabilities:** A financial liability is deactivated / derecognized when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference between the carrying amount of the financial liability derecognized and the consideration paid is recognized in the Statement of Profit and Loss.

3.10 Earnings Per Share

Basic earnings per share is computed by dividing the net profit or loss for the period attributable to the equity shareholders of the Company by the weighted average number of equity shares outstanding during the period. The weighted average number of equity shares outstanding during the period and for all periods presented is adjusted for events, such as bonus shares, other than the conversion of potential equity shares that have changed the number of equity shares outstanding, without a corresponding change in resources.

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period is adjusted for the effects of all dilutive potential equity shares.

3.11 Inventories

Inventories are stated at the lower of cost and net realisable value.

Cost of raw materials include cost of purchase and other costs incurred in bringing the inventories to their present location and condition. Cost of finished goods and work in progress include cost of direct materials and labour and a proportion of manufacturing overheads based on the normal operating capacity but excluding

borrowing costs. Cost of traded goods include purchase cost and inward freight. Costs of inventories are determined on weighted average basis.

Net realisable value represents the estimated selling price for inventories less all estimated costs of completion and costs necessary to make the sale.

3.12 Government Grant

Government grants are not recognised until there is reasonable assurance that the Company will comply with the conditions attached to them and that the grants will be received.

Government grants are recognised in the statement of profit and loss on a systematic basis over the years in which the Company recognises as expenses the related costs for which the grants are intended to compensate or when performance obligations are met.

Government grants and subsidies whose primary condition is that the Company should purchase, construct or otherwise acquire non-current assets are recognised as deferred revenue in the balance sheet which is disclosed as deferred grant receivable and transferred to the Statement of profit and loss on a systematic basis over the expected useful life of the related assets. Government grants and subsidies related to the income are deferred which is disclosed as deferred revenue arising from government grant in the balance sheet and recognized in the statement of profit and loss as an income in the period in which related obligations are met.

3.13 Foreign Currency

The functional currency of the Company is determined on the basis of the primary economic environment in which it operates. The functional currency of the Company is Indian National Rupee (INR).

The transactions in currencies other than the entity's functional currency (foreign currencies) are recognised at the rates of exchange prevailing at the dates of the transactions. At the end of each reporting year, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date. Non-monetary items carried at fair value that are denominated in foreign currencies are retranslated at the rates prevailing at the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

According to Appendix B of Ind AS 21 'Foreign currency transactions and advance consideration', purchase or sale transactions must be translated at the exchange rate prevailing on the date the asset or liability is initially recognized. In practice, this is usually the date on which the advance payment is paid or received. In the case of multiple advances, the exchange rate must be determined for each payment and collection transaction. Exchange differences on monetary items are recognised in statement of profit and loss.

3.14 Critical accounting judgements and use of estimates

In application of Company's accounting policies, which are described in Note 3, the directors of the Company are required to make judgements, estimations and assumptions about the carrying value of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only that period, or in the period of revision or future periods if the revision affects both current and future periods.

Following are the key assumptions concerning the future, and other key sources of estimation uncertainty at the end of the reporting period that may have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

- **a) Useful lives of Property, Plant & Equipment (PPE) and intangible assets:** The Company has adopted useful lives of PPE and intangible assets (other than goodwill) as described in Note 3.4 above. The Company reviews the estimated useful lives of PPE at the end of each reporting period.
- **b) Fair value measurements and valuation processes:** The Company measures financial instruments at fair value in accordance with the accounting policies mentioned above. For assets and liabilities that are recognized in the financial statements at fair value on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization at the end of each reporting period and discloses the same. When the fair values of financial assets and financial liabilities recorded in the Balance Sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques, including the discounted cash flow model, which involves various judgements and assumptions. Where necessary, the Company engages third-party qualified valuers to perform the valuation.
- **c) Other assumptions and estimation uncertainties:** Key items include standard provisions detailed below:
 - Recognition of deferred tax assets is based on estimates of taxable profits in future years. The Company prepares detailed cash flow and profitability projections, which are reviewed by the board of directors of the Company. Estimation of current tax expense and payable, recognition of deferred tax assets and the possibility of utilizing available tax credits - see Note 43.
 - Measurement of defined benefit obligations and other long-term employee benefits: see Note 38
 - Assessment of the status of various legal cases/claims and other disputes where the Company does not expect any material outflow of resources and hence these are reflected as contingent liabilities. Recognition and measurement of provisions and contingencies: key assumptions about the likelihood and magnitude of an outflow of resources
 - Impairment of financial assets - see Note 40

3.15 Statement of cash flows

Cash flows are reported using the indirect method, whereby profit/loss before tax is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing of financing flows. The cash flows from operating, investing and financing activities of the Company are segregated.

New and amended standards adopted by the Company

The Ministry of Corporate Affairs vide notification dated May 7, 2025 and August 13, 2025 notified the Companies (Indian Accounting Standards) Amendment Rules, 2025 and Companies (Indian Accounting Standards) Second Amendment Rules, 2025, respectively, which amended certain accounting standards (see below), and are effective for annual reporting periods beginning on or after April 1, 2025:

- **(a) Classification of Liabilities as Current or Non-current and Non-current Liabilities with Covenants - Amendments to Ind AS 1**

As a result of the adoption of the amendments to Ind AS 1, the Company changed its accounting policy for the classification of borrowings:

"Borrowings are classified as current liabilities unless, at the end of the reporting period, the Company has a right to defer settlement of the liability for at least 12 months after the reporting period. Covenants that the Company is required to comply with, on or before the end of the reporting period, are considered in classifying loan arrangements with covenants as current or non-current. Covenants that the Company is required to comply with after the reporting period do not affect the classification."

This new policy did not result in a change in the classification of the Company's borrowings. The Company did not make retrospective adjustments as a result of adopting the amendments to Ind AS 1.

- **(b) Supplier Finance Arrangements - Amendments to Ind AS 7 and Ind AS 107**

As the amendments to Ind AS 7 and Ind AS 107 regarding supplier finance arrangements are not applicable to the Company, no new disclosures were required to be provided in this regard.

- **(c) International Tax Reform - Pillar Two Model Rules - Amendments to Ind AS 12**

The Company is not within the scope of the OECD Pillar Two Model Rules, as Pillar Two legislation has not yet been enacted in any of the jurisdictions in which the Company operates.

- **(d) Lack of Exchangeability - Amendments to Ind AS 21**

The amended Ind AS 21 have added requirements to help entities to determine whether a currency is exchangeable into another currency, and the spot exchange rate to use where it is not. These amendments did not have any material impact on the amounts recognised in prior periods and are not expected to significantly affect the current or future periods.

(iii) New standards or amendments not yet adopted

Classification of Liabilities as Current or Non-current and Non-current Liabilities with Covenants - Amendments to Ind AS 1 - This amendment also includes specific provisions that will take effect for reporting periods beginning on or after April 1, 2026, as outlined below.

Under the existing Ind AS 1, where there is a breach of a material provision of a long-term loan arrangement on or before the end of the reporting period with the effect that the liability becomes payable on demand on the reporting date, the entity does not classify the liability as current, if the lender agreed, after the reporting period and before the approval of the financial statements for issue, not to demand payment as a consequence of the breach.

However, the amended requirements stipulate that entities will no longer be permitted to consider lender waivers that are granted after the reporting date but before the financial statements are approved for the purpose of classification of loans. This amendment is required to be applied retrospectively in accordance with Ind AS 8.

The Company does not expect this amendment to have an impact on its operations or financial statements.

The Company commissioned a new manufacturing facility at Bavla, Gujarat during the financial year. The facility commenced trial production on 1 September 2025 and obtained Approved List of Models and Manufacturers certification on 22 December 2025. During the trial production phase, the company manufactured and sold products generating revenue of ₹ 1,919.57 Lakhs with corresponding costs of ₹ 2,668.81 Lakhs. In accordance with Ind AS 16, the net cost of ₹ 749.24 Lakhs has been capitalized as part of the cost of property, plant and equipment, representing costs directly attributable to bringing the asset to its working condition. The facility commenced commercial operations from 22 December 2025 following receipt of all necessary regulatory approvals.

Notes:

- (iv) Terms and conditions of transactions with related parties**

(b) Settlements with related parties—Transactions with related parties are made on terms equivalent to those that prevail in arm's length transactions. Outstanding balances at the period/year-end are unsecured and interest free (other than Inter corporate deposit given and taken) and settlement occurs in cash.

There are no events observed after the reported period which have an impact on the company operations.

38: Employee Benefits:

(a) Defined Contribution Plans

The Company contributes to the Government managed provident and pension fund for all qualifying employees.

Contribution to provident fund of ₹ 22.24 Lakhs (31 March 2025 : 0.12 lakhs) is recognized as an expense and included in "Contribution to provident and other funds" in Statement of Profit and Loss.

Contribution to employee state insurance scheme of ₹ 0.34 Lakhs (31 March 2025 : ₹ 0.15 lakhs) is recognized as an expense and included in "Contribution to provident and other funds" in Statement of Profit and Loss.

(b) Defined Benefit Plans:

The Company has defined benefit plan for payment of gratuity to all qualifying employees. It is governed by the Payment of Gratuity Act, 1972. Under this Act, an employee who has completed five years of service is entitled to the specified benefit. The level of benefits provided depends on the employee's length of service and salary at retirement age. The Company's defined benefit plan is unfunded.

There are no other post retirement benefits provided by the Company.

The actuarial valuation of the present value of the defined benefit obligation were carried out as at 31 March 2026 and as at 31 March 2025 by M/s Charan Gupta Consultants Pvt Ltd, Fellow of the Institute of the Actuaries of India. The present value of the defined benefit obligation, the related current service cost and past service cost, were measured using the projected unit credit method.

(₹ in Lakhs)		
Movement in the present value of the defined benefit obligation are as follows :		
Particulars	As At 31 March 2026	As At 31 March 2025
Opening defined benefit obligation	11.32	-
Interest cost	0.77	-
Current service cost	25.59	2.26
Past Service Cost including curtailment Gains/Losses	3.80	9.06
Benefits paid	-	-
Actuarial (gain) / loss on obligations	(0.85)	-
Present value of obligation as at the year end	40.62	11.32

(₹ in Lakhs)		
Gratuity		
Particulars	As At 31 March 2026	As At 31 March 2025
Current service cost	29.39	11.32
Interest cost	0.77	-
Acquisition adjustment In	-	-
Amount recognised in profit or loss	30.16	11.32
Actuarial (gain)/loss		
a) arising from changes in financial assumptions	(1.02)	-
b) arising from experience adjustments	0.16	-
Amount recognised in other comprehensive income	(0.85)	-
Total	29.30	11.32

The principal assumptions used for the purposes of the actuarial valuations of gratuity are as follows:

Particulars	As At 31 March 2026	As At 31 March 2025
Discount rate (per annum)	7.29%	6.79%
Expected rate of salary increase	8.00%	8.00%
Employee attrition rate	5%	5%
Mortality	100 % of IALM (2012 - 14)	100% of IALM (2012-14)

Estimates of future salary increases considered in actuarial valuation take account of inflation, seniority, promotion and other relevant factors such as supply and demand in the employment market.

These plans typically expose the Company to actuarial risks such as interest rate risk and salary risk.

a) Interest risk: a decrease in the bond interest rate will increase the plan liability.

b) Salary risk: the present value of the defined benefit plan liability is calculated by reference to the future salaries of plan participants. As such, a variation in the expected rate of salary increase of the plan participants will change the plan liability.

Sensitivity analysis

Significant actuarial assumptions for the determination of defined obligation are discount rate and expected salary increase. The sensitivity analysis below have been determined based on reasonably possible changes of the respective assumptions occurring at the end of the reporting period, while holding all other assumptions constant.

Particulars	(₹ in Lakhs)	
	Gratuity	
	As At 31 March 2026	As At 31 March 2025
Impact on present value of defined benefit obligation:		
If discount rate is increased by 0.50%	(2.27)	(0.52)
If discount rate is decreased by 0.50%	2.48	0.57
If salary escalation rate is increased by 0.50%	2.45	0.56
If salary escalation rate is decreased by 0.50%	(2.27)	(0.52)

The sensitivity analysis presented above may not be representative of the actual change in the defined benefit obligation as it is unlikely that the change in assumption would occur in isolation of one another as some of the assumptions may be correlated. Furthermore, in presenting the above sensitivity analysis, the present value of the defined benefit obligation has been calculated using the projected unit credit method at the end of the reporting period, which is the same as that applied in calculating the defined benefit obligation liability recognised in the balance sheet.

Discounted Expected outflow in future years (as provided in actuarial report)

Particulars	(₹ in Lakhs)	
	As At 31 March 2026	As At 31 March 2025
	Gratuity	
Expected outflow in 1st Year	0.80	0.48
Expected outflow in 2nd Year	0.77	0.52
Expected outflow in 3rd Year	0.76	3.53
Expected outflow in 4th Year	5.25	0.30
Expected outflow in 5th Year	1.58	0.34
Expected outflow in 6th year	1.89	0.52
Expected outflow 7th year onwards	29.57	5.62

The average duration of the defined benefit plan obligation at the end of period ended 31 March 2026 is 14.16 years (31 March 2025 : 12.11 years).

(c) Other long term employment benefits:

Annual leave & Short term leave

The liability towards compensated absences (annual and short term leave) for the period ended 31 March 2026 and 31 March 2025 based on actuarial valuation carried out by using projected accrued benefit method resulted in increase in liability by ₹ 33.96 lakhs (31 March 2025: ₹ 4.70 lakhs), which is included in the employee benefits in the Statement of Profit and Loss.

The principal assumptions used for the purposes of the actuarial valuations of compensated absences are as follows:

Particulars	As At 31 March 2026	As At 31 March 2025
Discount rate	7.29%	6.79%
Expected rate of salary increase	8.00%	8.00%
Employee attrition rate	5.00%	5.00%
Mortality rate	100 % of IALM (2012 - 14)	100 % of IALM (2012 - 14)

40: Financial Instruments:

(i) Categories of financial instruments

Particulars	(₹ in Lakh)	
	As at 31 March 2026	As at 31 March 2025
Financial assets		
Measured at amortised cost		
(i) Cash and bank balances	1,262.05	4.48
(ii) Loans	204.37	3,896.51
(iii) Other Financial Assets	388.19	257.72
Total	1,854.60	4,158.71
Financial liabilities		
Measured at amortised cost		
(i) Borrowings	45,466.40	-
(ii) Other financial liabilities	17,078.59	112.85
(iii) Lease liabilities	4,264.52	-
(iv) Trade Payable	5,808.83	-
Total	72,618.34	112.85

The carrying amount reflected above represents the Company's maximum exposure to credit risk for such financial assets.

(ii) Financial risk management

The Company's corporate finance function provides services to the business, coordinates access to financial market, monitors and manages the financial risks relating to the operations of the Company through internal risk reports which analyse exposures by degree and magnitude of the risk. These risks include market risk (including currency risk, interest rate risk and other price risk), credit risk and liquidity risk.

The Company seeks to minimize the effects of these risks by using derivative financial instruments to hedge risk exposures. The use of financial derivatives is governed by the Company's policies approved by the Board of Directors of the Company, which provide principles on foreign exchange risk, interest rate risk, credit risk, the use of financial derivatives and non-derivative financial instruments and the investment of the excess liquidity. Compliance with policies and exposure limits is reviewed by the Company on a continuous basis. The Company does not enter into or trade financial instruments including derivative financial

(iii) Market Risk

The Company's activities expose it primarily to the financial risks of changes in foreign currency exchange rates and interest rates.

(iv) (a) Foreign Currency Risk Management

The Company is subject to the risk that changes in foreign currency values mainly impact the Company's cost of imports of materials/capital goods and Foreign exchange transactions are covered with in limits placed on the amount of uncovered exposure, if any, at any point in time. The aim of the company's approach to management of currency risk is to leave the Company with minimised residual risk.

The carrying amount of unhedged Foreign Currency (FC) denominated monetary liabilities at the end of the reporting period are as follows:

Particulars	As at 31 March 2026		As at 31 March 2025	
	INR in lakhs	FC in lakhs (\$)	INR in lakhs	FC in lakhs (\$)
Liabilities				
In USD				
Invoice Purchase Finance	20,963.64	221.48	-	-
USD Total	20,963.64	221.48	-	-

(iv) (b) Foreign Currency Sensitivity Analysis

The Company is exposed to foreign exchange risk arising from various currency exposures, primarily with respect to US Dollar.

A 10% strengthening of the INR against key currencies to which the Company is exposed (net of hedge) would have led to additional gain in the Statement of Profit and Loss. A 10% weakening of the INR against these currencies would have led to an equal but opposite effect.

Particulars	(₹ in Lakhs)	
	As at 31 March 2026	As at 31 March 2025
Impact on profit or loss for the year		
Strengthening by 10%	1,568.75	-
Weakening by 10%	(1,568.75)	-
Impact on total equity as at the end of the reporting period		
Strengthening by 10%	1,568.75	-
Weakening by 10%	(1,568.75)	-

(v) (a) Interest Rate Risk Management

Interest rate risk refers to the possibility that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rate. The Company is exposed to interest rate risk because it borrows funds at both fixed and floating interest rates. The risk is managed by the Company by maintaining an appropriate mix between fixed and floating rate borrowings. Hedging activities are evaluated regularly to align with interest rate views and defined risk appetite, ensuring the most cost-effective hedging strategies are applied.

(b) Interest Rate Sensitivity Analysis

The sensitivity analysis below have been determined based on the exposure to interest rates for floating rate liabilities at the end of the reporting period. For floating rate liabilities, a 50 basis point increase or decrease is used when reporting interest rate risk internally to key management personnel and represents management's assessment of the reasonably possible change in interest rates.

If interest rates had been 50 basis points higher/lower and all other variables were held constant, the Company's profit for the year ended 31 March 2026 would decrease/increase by ₹ 169.39 Lakhs (net of tax) (for the year ended 31 March 2025 decrease/increase by ₹ Nil). This is mainly attributable to the Company's exposure to interest rates on its variable rate borrowings.

Particulars	(₹ in Lakhs)	
	As at 31 March 2026	As at 31 March 2025
Floating rate liabilities	170.12	-
Fixed rate liability	-	-

(vi) Other Price Risks

Other price risk is the risk that the fair value of a financial instrument will fluctuate due to changes in market traded price. Other price risk arises from financial assets such as investments in equity instruments and mutual funds. The Company does not have investment in equity instruments or in mutual funds.

(vii) Credit Risk Management

Credit risk refers to risk that a counterparty will default on its contractual obligations resulting in financial loss to the Company. Credit risk arises primarily from financial assets such as trade receivables, derivative financial instruments, other balances with banks, loans and other receivables.

a) Trade Receivables

Credit risk arising from trade receivables is managed in accordance with the Company's established policy, procedures and control relating to customer credit risk management. The Company supplies solar cells equipments to customers which are installed and commissioned generally by Company and it involves various activities. The payment terms with customers are fixed as per industry norms. The Company considers such amounts as due only on completion of related milestones. Accordingly, risk of recovery of such amounts is mitigated. Customers who represents more than 5% of the total balance of Trade Receivable as at 31 March 2026 is ₹ 5,386.26 lakhs (as at 31 March 2025 of ₹ Nil) are due from 2 major customers (Nil customers as at 31 March 2025) who are reputed parties. All trade receivables are reviewed and assessed for default at each reporting period.

For trade receivables, as a practical expedient, the Company computes credit loss allowance based on a provision matrix. The provision matrix is prepared based on historically observed default rates over the expected life of trade receivables and is adjusted for forward-looking estimates. The provision matrix at the end of the reporting period is as follows .

Age of receivables	As at 31 March 2026	As at 31 March 2025
0-90 days	5,553.78	-
91-180 days	-	-
181- 365 days	-	-
366-730 days	-	-
Above 730 days	-	-
Gross trade receivables	5,553.78	-

Expected Credit Losses (%)

Ageing	Expected credit losses (%)	Expected credit losses (%)
	2025-26	2024-25
0-1 Year	0.50%	0%
1-2 Year	2.00%	0%
2-3 Year	10.00%	0%
3-5 Year	25.00%	0%
Above 5 Year	100.00%	0%

Movement in the expected credit loss allowance :

Particulars	(₹ in Lakhs)	
	As at 31 March 2026	As at 31 March 2025
Balance at beginning of the year	-	-
Movement in expected credit loss allowance	27.77	-
Movement in expected credit loss allowance-Amount written off	-	-
Balance at end of the year	27.77	-

Inox Solar Limited

CIN: U35105GJ2024PLC156301

Notes to the financial statements for the year ended on 31 March 2026

b) Loans and Other Receivables

The Company applies expected credit losses (ECL) model for measurement and recognition of loss allowance on the loans given by the Company to the external parties. ECL is the difference between all contractual cash flows that are due to the company in accordance with the contract and all the cash flows that the entity expects to receive (i.e., all cash shortfalls), discounted at the original effective interest rate.

The company determines if there has been a significant increase in credit risk of the financial asset since initial recognition. If the credit risk of such assets has not increased significantly, an amount equal to 12-month ECL is measured and recognized as loss allowance. However, if credit risk has increased significantly, an amount equal to lifetime ECL is measured and recognized as loss allowance.

12-month ECL are a portion of the lifetime ECL which result from default events that are possible within 12 months from the reporting date. Lifetime ECL are the expected credit losses resulting from all possible default events over the expected life of a financial asset.

ECL are measured in a manner that they reflect unbiased and probability weighted amounts determined by a range of outcomes, taking into account the time value of money and other reasonable information available as a result of past events, current conditions and forecasts of future economic conditions.

ECL impairment loss allowance (or reversal) recognized during the period is recognized as expense/income in the Statement of Profit and Loss under the head 'Other expenses'/'Other income'.

c) Other Financial Assets

Credit risk arising from investment in other balances with banks is limited because the counterparties are banks and recognised financial institutions with high credit ratings assigned by the various credit rating agencies. There are no collaterals held against such investments.

Liquidity Risk Management

Ultimate responsibility for liquidity risk management rests with the board of directors of the Company, which has established an appropriate liquidity risk management framework for the management of the company's short, medium and long-term funding and liquidity management requirements. The company manages liquidity risk by maintaining adequate reserves, banking facilities and reserve borrowing facilities, by continuously monitoring forecast and actual cash flows, and by matching the maturity profiles of financial assets and liabilities.

a) Financing Arrangements

The company has access to the following undrawn borrowing facilities at the end of the reporting period.

(₹ in Lakhs)

Particulars	As at 31 March 2026	As at 31 March 2025
ICICI bank	12,900.00	-

Liquidity and Interest Risk Tables

The following table detail the analysis of derivative as well as non-derivative financial liabilities of the company into relevant maturity groupings based on the remaining period from the reporting date to the contractual maturity date. The amounts disclosed in the table are the contractual undiscounted cash flows.

(₹ in Lakhs)

Particulars	Contractual cash flows			
	Upto 1 year	Between 1 and 2 years	Between 2 and 5 years	More than 5 years
As at 31 March 2026				
Borrowings	28,631.93	16,990.09	-	-
Trade payables	5,808.83	-	-	-
Other financial liabilities	17,078.59	-	-	-
	51,519.35	16,990.09	-	-
As at 31 March 2025				
Borrowings	-	-	-	-
Trade payables	-	-	-	-
Other financial liabilities	112.85	-	-	-
	112.85	-	-	-

The above liabilities will be met by the Company from internal accruals, realization of current and non-current financial assets (other than strategic investments). Further, the Company also has unutilised financing facilities.

(viii) Fair Value of the Company's financial assets and financial liabilities that are measured at fair value on a recurring basis:

Financial assets/(Financial liabilities)	Fair Value as at		Fair Value Hierarchy	Valuation Technique(s) & key	Significant unobservable input(s)	Relationship of unobservable inputs
	31 March 2026	31 March 2025				
NA	NA	NA	NA	NA	NA	NA

During the period, there were no transfers between Level 1 and level 2

(ix) Fair value of financial assets and financial liabilities that are not measured at fair value (but fair value disclosures are required)

The carrying amount of financial assets and financial liabilities measured at amortised cost in the financial statements are a reasonable approximation of their fair values since the company does not anticipate that the carrying amounts would be significantly different from the values that would eventually be received or

Inox Solar Limited

CIN: U35105GJ2024PLC156301

Notes to the financial statements for the year ended on 31 March 2026

41: Capital Management

For the purpose of the Company's capital management, capital includes issued equity share capital and all other equity reserves attributable to the equity holders of the Company.

The Company's capital management objectives are:

- to ensure the Company's ability to continue as a going concern
- to provide an adequate return to shareholders by pricing products and services commensurately with the level of risk.

The Company manages its capital structure and makes adjustments in light of changes in economic conditions and the requirements of the financial covenants. To maintain or adjust the capital structure, the Company may adjust the dividend payment to shareholders, return capital to shareholders or issue new shares. The Company monitors capital using a gearing ratio, which is net debt divided by total equity. The Company includes within net debt, interest bearing loans and borrowings, less cash and cash equivalents, excluding discontinued operations, if any.

The gearing ratio at the end of the reporting period was as follows:

Particulars	(₹ in Lakh)	
	As at 31 March 2026	As at 31 March 2025
Borrowings	45,466.40	-
Interest accrued but not due on borrowings	1.66	-
Total debt	45,468.06	-
Less: Cash and bank balances (excluding bank deposits kept as lien)	1,262.05	4.48
Net debt	44,206.02	(4.48)
Total Equity	6,489.72	4,936.82
Gearing ratio #	87.20%	0.00

Disclosed as 0.00% for the year ended 31 March 2025 since the same is negative as the Group is funded majority through own funds and equity investments.

49 Segment information

In accordance with Ind AS 108 'Operating Segments', the Company has identified a single reportable segment: the manufacturing of solar power generating equipment. The Chief Operating Decision Maker (CODM) reviews the performance of the Company as a unified entity. Since all principal operations, revenue generation, and non-current assets are located strictly within India, no separate geographical or business segment disclosures are required in these interim financial statements.

Major customer

Revenues from four customers of the Company represented INR 17,503.97 lakhs (31 March 2025: Nil) which is more than 10% of the Company's total revenues.

Inox Solar Limited
